Dr. Ahmed ElShafee, ACU Spring 2011, Data Communication

General information

Course name, Code	DataCommunication, CNE203
Pre-requisite	-
Credit hours	3
Number of lectures	15
Date, time, place	Tuesday , 12:30 AM ~ 15:00 PM Class 1208
Text book	W.Stallings, "Data and Computer Communications", 8 th edition, 2008.

Email	email@draelshafee.net
Presentations and materials	www.Draelshafee.net

Dr. Ahmed ElShafee, ACU Spring 2011, Data Communication

Course description

Course contains the basics of data transmission technologies and techniques, and different environmental implications on data transmission over different medias.

3

Dr. Ahmed ElShafee, ACU Spring 2011, Data Communication

Course objective

Courses provide the student with the required knowledge base of data communication as an introduction to networking.

4

Dr. Ahmed ElShafee, ACU Spring 2011, Data Communication

Course outcomes

Learning Outcomes

After completing this course the students will be :

- Understand different data manipulation techniques in communication systems.
- Understand different type of propagation medias
- Understand different implication on propagation and data transferee.
